The Honorable Ernest Moniz
Secretary
U.S. Department of Energy
1000 Independence Avenue, SW
Washington, DC 20585

Dear Mr. Secretary:

The Committee has questions about whether federal grants awarded by the Department of Energy's (DOE) SunShot Initiative may be funding groups that engage in lobbying activities on solar issues in possible contravention of the anti-lobbying act.¹ Specifically, the Committee is interested in whether DOE funds may have been used to lobby for state subsidies for the rooftop solar industry. Also raising our interest is a study showing that the cost of producing rooftop solar energy is significantly more than producing solar energy at a utility-scale.²

Since 2010, DOE has given over \$28 million to the Interstate Renewable Energy Council (IREC), a nonprofit engaged in renewable energy advocacy and advancement.³ In 2013 and 2014, IREC paid over \$2.7 million to an outside law firm engaged in working with public utilities and governments to advance renewable energy interests.⁴ Members of IREC's team include attorneys that represented IREC at that firm, and continue to represent IREC in government matters at another law firm.⁵ Those attorneys represent IREC "in state and federal regulatory matters," including before state public utility commissions and the Federal Energy Regulatory Commission.⁶

Similarly, since 2013 DOE has given over \$2.2 million to Clean Energy States Alliance (CESA) for actions associated with renewable energy advancement and outreach.⁷ This past May, CESA received \$568,000 through DOE's SunShot Initiative specifically to advance solar initiatives supported by government officials.⁸

In order for the Committee to better understand how DOE's grant money for solar energy projects is allocated and used, please provide the following information as soon as possible, but no later than August 30, 2016:

1. All documents and communications referring or relating to grants awarded to CESA and IREC through DOE's SunShot Initiative, and the allocation of DOE grant money from January 1, 2011, to the present.
2. All documents and communications between DOE and IREC, and DOE and CESA, referring or relating to DOE grants, the SunShot Initiative, and the allocation of DOE grant money, from January 1, 2011, to the present.
3. All documents and communications relating to any interaction between DOE and any agent or representative for IREC or CESA in matters referring or relating to solar energy, the SunShot Initiative, or matters supported by a DOE grant, between January 1, 2011, and the present.

The Committee on Oversight and Government Reform is the principal investigative committee in the U.S. House of Representatives. Pursuant to House Rule X, the Committee has authority to investigate "any matter" at "any time."

When producing documents to the Committee, please deliver production sets to the Majority staff in Room 2157 of the Rayburn House Office Building. The Committee prefers, if possible, to receive all documents in electronic format. An attachment to this letter provides additional information about responding to the Committee's request.

Please have your staff contact Drew Feeley of Chairman Chaffetz' staff at (202) 225-5074 with any questions about this request. Thank you for your attention to this matter.

Sincerely,

Jason Chaffetz
Chairman

Responding to Committee Document Requests

1. In complying with this request, you are required to produce all responsive documents that are in your possession, custody, or control, whether held by you or your past or present agents, employees, and representatives acting on your behalf. You should also produce documents that you have a legal right to obtain, that you have a right to copy or to which you have access, as well as documents that you have placed in the temporary possession, custody, or control of any third party. Requested records, documents, data or information should not be destroyed, modified, removed, transferred or otherwise made inaccessible to the Committee.
2. In the event that any entity, organization or individual denoted in this request has been, or is also known by any other name than that herein denoted, the request shall be read also to include that alternative identification.
3. The Committee's preference is to receive documents in electronic form (i.e., CD, memory stick, or thumb drive) in lieu of paper productions.
4. Documents produced in electronic format should also be organized, identified, and indexed electronically.
5. Electronic document productions should be prepared according to the following standards:
 - (a) The production should consist of single page Tagged Image File ("TIF"), files accompanied by a Concordance-format load file, an Opticon reference file, and a file defining the fields and character lengths of the load file.
 - (b) Document numbers in the load file should match document Bates numbers and TIF file names.
 - (c) If the production is completed through a series of multiple partial productions, field names and file order in all load files should match.
 - (d) All electronic documents produced to the Committee should include the following fields of metadata specific to each document;

BEGDOC, ENDDOC, TEXT, BEGATTACH, ENDATTACH,
PAGECOUNT, CUSTODIAN, RECORDTYPE, DATE, TIME, SENTDATE,
SENTTIME, BEGINDATE, BEGINTIME, ENDDATE, ENDTIME, AUTHOR, FROM,

DATECREATED, TIMECREATED, DATELASTMOD, TIMELASTMOD,
INTMSGID, INTMSGHEADER, NATIVELINK, INTFILPATH, EXCEPTION,
BEGATTACH.
6. Documents produced to the Committee should include an index describing the contents of the production. To the extent more than one CD, hard drive, memory stick, thumb drive, box or folder is produced, each CD, hard drive, memory stick, thumb drive, box or folder should contain an index describing its contents.

7. Documents produced in response to this request shall be produced together with copies of file labels, dividers or identifying markers with which they were associated when the request was served.
8. When you produce documents, you should identify the paragraph in the Committee's schedule to which the documents respond.
9. It shall not be a basis for refusal to produce documents that any other person or entity also possesses non-identical or identical copies of the same documents.
10. If any of the requested information is only reasonably available in machine-readable form (such as on a computer server, hard drive, or computer backup tape), you should consult with the Committee staff to determine the appropriate format in which to produce the information.
11. If compliance with the request cannot be made in full by the specified return date, compliance shall be made to the extent possible by that date. An explanation of why full compliance is not possible shall be provided along with any partial production.
12. In the event that a document is withheld on the basis of privilege, provide a privilege log containing the following information concerning any such document: (a) the privilege asserted; (b) the type of document; (c) the general subject matter; (d) the date, author and addressee; and (e) the relationship of the author and addressee to each other.

When documents are produced to the Committee, production sets shall be delivered to the Majority Staff in Room 2157 of the Rayburn House Office Building and the Minority Staff in Room 2471 of the Rayburn House Office Building.

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
