Dear Mr. Sackler:

The Committee on Oversight and Reform requests your testimony at a remote hearing on December 8, 2020, at 10:00 a.m. The hearing will examine the role of Purdue Pharma and members of the Sackler family in fueling America's opioid epidemic.

Since 1952, members of your family have owned a controlling share of Purdue Pharma, an opioid manufacturer that has marketed and sold the highly addictive pain medication OxyContin for nearly 25 years.¹ Purdue has generated more than \$30 billion in revenue since bringing OxyContin to market in 1996, and your family has withdrawn more than \$10 billion from the company.²

On October 21, 2020, the Department of Justice (DOJ) announced a proposed settlement agreement resolving criminal and civil investigations into Purdue and members of your family—including you—for your role in fueling America's opioid crisis, which has claimed nearly 450,000 lives since 1999.³ As part of the proposed DOJ settlement, your family agreed to pay \$225 million in damages to resolve civil False Claims Act liability—approximately 2% of your

family's estimated net worth.⁴ The settlement did not include any criminal charges against you and your family members, and it did not include an admission of liability or wrongdoing from any member of your family.⁵ Today, Purdue pleaded guilty to three federal felony charges for its sales and marketing practices related to OxyContin.⁶

The Committee has obtained documents showing that your family was closely involved in Purdue's efforts to grow the market share for OxyContin and other opioids, even after entering into a prior settlement with DOJ on charges of misbranding—for which Purdue paid \$600 million in fines for misleading the public about OxyContin's risk.

This hearing will convene remotely using WebEx. For participants joining remotely, the enclosed WebEx user guides demonstrate how to (1) join the briefing using various devices; (2) edit WebEx profiles including adding a profile picture and changing WebEx user names; and (3) ensure the best user experience by employing general best practices (e.g., optimal lighting and sound conditions).
