**Subject:** Additional details on NIAID contract

Dear Paula,

Attached is a document of the scientific advances/uses of the humanized mice associated with this contract, and below are details of the obligations. I hope this is useful and please let me know if there's anything additional that you need. Cheers, Carrie

Under the current contract for this requirement (Contract No. HHSN272201400002C), the following is the schedule of obligations made to date:

|   |                      |
|---|----------------------|
| Year 1 (December 6, 2013 through December 5, 2014): | \$ [REDACTED]        |
| Year 2 (December 6, 2014 through December 5, 2015): | \$ [REDACTED]        |
| Year 3 (December 6, 2015 through December 5, 2016): | \$ [REDACTED]        |
| Year 4 (December 6, 2016 through December 5, 2017): | \$ [REDACTED]        |
| Year 5 (December 6, 2017 through December 5, 2018): | \$ [REDACTED]        |
| <b>Total Obligated To Date =</b>                    | <b>\$ [REDACTED]</b> |

Regarding the current contract for this requirement (Contract No. HHSN272201400002C), the Statement of Work was revised slightly under contract Modification No. 1, in order to reflect certain changes that were agreed to during negotiations, but were mistakenly not included in the Statement of Work of the awarded contract. These changes were considered minor and relate to the number of mice to be provided (including the number of mice per experiment), the frequency of cohorts being provided and the number of draft protocols to be prepared.
