MAJORITY (202) 225-5074

March 16, 2015

The Honorable Jeh Johnson
Secretary
U.S. Department of Homeland Security
Washington, D.C. 20528

Dear Mr. Secretary:

The Committee is conducting oversight of the Transportation Security Administration's airport credentialing function. The Committee is specifically interested in determining the adequacy of existing safeguards for protecting airport employees' credentials. In light of a recent report that hundreds of employee badges are missing from one of the nation's busiest airports, we are writing to request information that will assist the Committee's effort to identify and address any vulnerability that may exist.

According to NBC News, "1,400 badges that allow employees to access secure areas... have gone missing over roughly two years" from the Hartsfield-Jackson Atlanta International Airport.¹ Hartsfield-Jackson was the only airport to respond to a survey that requested data related to missing badges.² The Transportation Security Administration "blocked the release of more data," so the scope of the problem is unknown.³

To assist the Committee, please provide the following information as soon as possible, but no later than 5:00 p.m. on March 30, 2015.

1. A list of all lost, stolen, or otherwise unaccounted for airport employee credentials since 2010, to include details sufficient to determine the year and the airport from which the credentials went missing.
2. A detailed description of training and guidance for new and existing employees regarding safeguarding their credentials.
3. A detailed description of the rules and policies for reporting a lost, stolen, or otherwise unaccounted for credential, including, but not limited to, any policies for disciplinary action related to losing credentials or for failing to report such a loss.

4. A detailed list of employees who lost credentials more than once since January 1, 2010. For each, please identify any relevant corrective or disciplinary action.
5. A detailed description of the security procedures in place to ensure a lost, stolen, or otherwise unaccounted for credential cannot be used by an unauthorized individual.
6. A detailed list of any instance where an unauthorized individual gained access to any part of an airport using a fraudulent or stolen credential.
7. A detailed description of the different types of secure airport areas, including a description of which airport employees are authorized to access each area.

An attachment to this letter provides additional information about responding to the Committee's request. When producing documents to the Committee, please deliver production sets to the Majority staff in Room 2157 of the Rayburn House Office Building and the Minority staff in Room 2471 of the Rayburn House Office Building. The Committee prefers, if possible, to receive all documents in electronic format.

The Committee on Oversight and Government Reform is the principal investigative committee in the U.S. House of Representatives. Pursuant to House Rule X, the Committee has authority to investigate "any matter" at "any time."

If you have questions about this request, please contact James Robertson or Michael Kiko of the Majority staff at (202) 225-5074. Thank you for your prompt attention to this matter.

Sincerely,

Jason Chaffetz

You should also produce documents that you have a legal right to obtain, that you have a right to copy or to which you have access, as well as documents that you have placed in the temporary possession, custody, or control of any third party. Requested records, documents, data or information should not be destroyed, modified, removed, transferred or otherwise made inaccessible to the Committee.
2. In the event that any entity, organization or individual denoted in this request has been, or is also known by any other name than that herein denoted, the request shall be read also to include that alternative identification.

6. Documents produced to the Committee should include an index describing the contents of the production. To the extent more than one CD, hard drive, memory stick, thumb drive, box or folder is produced, each CD, hard drive, memory stick, thumb drive, box or folder should contain an index describing its contents.

7. Documents produced in response to this request shall be produced together with copies of file labels, dividers or identifying markers with which they were associated when the request was served.
8. When you produce documents, you should identify the paragraph in the Committee's schedule to which the documents respond.
9. It shall not be a basis for refusal to produce documents that any other person or entity also possesses non-identical or identical copies of the same documents.
10. If any of the requested information is only reasonably available in machine-readable form (such as on a computer server, hard drive, or computer backup tape), you should consult with the Committee staff to determine the appropriate format in which to produce the information.
11. If compliance with the request cannot be made in full by the specified return date, compliance shall be made to the extent possible by that date. An explanation of why full compliance is not possible shall be provided along with any partial production.
12. In the event that a document is withheld on the basis of privilege, provide a privilege log containing the following information concerning any such document: (a) the privilege asserted; (b) the type of document; (c) the general subject matter; (d) the date, author and addressee; and (e) the relationship of the author and addressee to each other.
13. If any document responsive to this request was, but no longer is, in your possession, custody, or control, identify the document (stating its date, author, subject and recipients) and explain the circumstances under which the document ceased to be in your possession, custody, or control.
14. If a date or other descriptive detail set forth in this request referring to a document is inaccurate, but the actual date or other descriptive detail is known to you or is otherwise apparent from the context of the request, you are required to produce all documents which would be responsive as if the date or other descriptive detail were correct.
15. Unless otherwise specified, the time period covered by this request is from January 1, 2009 to the present.
16. This request is continuing in nature and applies to any newly-discovered information. Any record, document, compilation of data or information, not produced because it has not been located or discovered by the return date, shall be produced immediately upon subsequent location or discovery.
17. All documents shall be Bates-stamped sequentially and produced sequentially.
18. Two sets of documents shall be delivered, one set to the Majority Staff and one set to the Minority Staff. When documents are produced to the Committee, production sets shall be delivered to the Majority Staff in Room 2157 of the Rayburn House Office Building and the Minority Staff in Room 2471 of the Rayburn House Office Building.

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
