The Honorable Gina McCarthy  
Administrator  
U.S. Environmental Protection Agency  
1200 Pennsylvania Avenue NW  
Washington, DC 20460

Dear Administrator McCarthy:

On July 24, 2015, the Committee requested copies of certain memoranda developed by the Army Corps of Engineers (Corps) detailing deficiencies in the development of the recently published rule, “Waters of the United States.”<sup>1</sup> Given the content of the memoranda, it is unclear why the Environmental Protection Agency (EPA) did not include the documents in the administrative record for the rule. The Committee remains interested and expects to receive the information relating to these documents requested in its July 24, 2015 request.

The April 27, 2015 (April Memorandum)<sup>2</sup> and May 15, 2015 (May Memorandum)<sup>3</sup> memoranda and attachments (together, “memoranda”) from Major General John Peabody, Deputy Commanding General for Civil and Emergency Operations, at the Corps to Jo-Ellen Darcy, Assistant Secretary for the Army for Civil Works, raise serious concerns about various legal and scientific deficiencies of the rule. The April Memorandum states “[t]he rule’s contradictions with legal principles generate multiple legal and technical consequences that, in the view of the Corps, would be fatal to the rule in its current form” and that as is, the rule will be “legally vulnerable, difficult to defend in court, difficult for the Corps to explain or justify, and challenging for the Corps to implement.”<sup>4</sup> Continuing, the memorandum states the rule has abandoned principles of “sound science” and “introduced indefensible provisions into the rule.”<sup>5</sup> The May Memorandum adds that EPA’s Economic Analysis and Technical Support Document supporting the rule are “flawed in multiple respects,” and the Corps’ review could not find a justifiable basis in the analysis for many of the documents’ conclusions.”<sup>6</sup>

<sup>2</sup> Memorandum from Major General John Peabody, U.S. Army Corps of Engineers, to Jo-Ellen Darcy, U.S. Army (April 27, 2015).

<sup>3</sup> Memorandum from Major General John Peabody, U.S. Army Corps of Engineers, to Jo-Ellen Darcy, U.S. Army (May 15, 2015).

The memoranda also assert that not only did the EPA not consult with the Corps, but the agency misused Corps data in their development of the rule. The May Memorandum states, “Corps data provided to EPA has been selectively applied out of context, and mixes terminology and disparate data sets” and the analysis EPA used to justify the rule contains “numerous inappropriate assumptions with no connection to the data provided, misapplied data, analytical deficiencies, and logical inconsistencies.”<sup>7</sup> It also provides that such analysis “can only be characterized as having been developed by the EPA” and “[t]o either imply or portray [the Corps] as a co-author or contributor to these documents, other than as the provider of raw unanalyzed data, is simply untrue.”<sup>8</sup>

In a hearing about mismanagement at the EPA before this Committee on July 29, 2015,<sup>9</sup> you testified about your knowledge of these memoranda and your understanding that the Corps walked through the concerns raised in these memoranda with the EPA. You also testified that, despite not being privy to the contents of the memoranda, you understood that all of the concerns raised by the Corps had been satisfied in the final rule. Yet, in the April Memorandum the Corps asserts, “...to date, the fixes have not been adopted so the flaws remain.”<sup>10</sup>

We are attaching copies of the memoranda to this letter for your review. Please provide a response to the Committee on whether each of the issues and recommendations raised by the Corps in these documents were, in fact, adopted or otherwise addressed in the final rule. If certain recommendations or issues were not adopted or addressed, please provide a detailed explanation of the EPA’s justification for making those decisions. Additionally, please provide an explanation as to why these memoranda were not included in the rule’s administrative record. Please provide your responses to these requests to the Committee as soon as possible, but by no later than 5:00 p.m. on Thursday, August 6, 2015.

When producing documents to the Committee, please deliver production sets to the Majority staff in room 2157 of the Rayburn House Office Building and the Minority staff in room 2471 of the Rayburn House Office Building. The Committee prefers, if possible, to receive all documents in electronic format. An attachment to this letter provides additional information about responding to the Committee’s request.

The Committee on Oversight and Government Reform is the principal oversight committee of the U.S. House of Representatives and may at “any time” investigate “any matter” as set forth in House Rule X.

Please contact Christina Aizcorbe of the Committee staff at (202) 225-5074 with any questions about this request. Thank you for your attention to this matter.

1. In complying with this request, you are required to produce all responsive documents that are in your possession, custody, or control, whether held by you or your past or present agents, employees, and representatives acting on your behalf. You should also produce documents that you have a legal right to obtain, that you have a right to copy or to which you have access, as well as documents that you have placed in the temporary possession, custody, or control of any third party. Requested records, documents, data or information should not be destroyed, modified, removed, transferred or otherwise made inaccessible to the Committee.
2. In the event that any entity, organization or individual denoted in this request has been, or is also known by any other name than that herein denoted, the request shall be read also to include that alternative identification.
3. The Committee's preference is to receive documents in electronic form (i.e., CD, memory stick, or thumb drive) in lieu of paper productions.
4. Documents produced in electronic format should also be organized, identified, and indexed electronically.
5. Electronic document productions should be prepared according to the following standards:
  - (a) The production should consist of single page Tagged Image File ("TIF"), files accompanied by a Concordance-format load file, an Opticon reference file, and a file defining the fields and character lengths of the load file.
  - (b) Document numbers in the load file should match document Bates numbers and TIF file names.
  - (c) If the production is completed through a series of multiple partial productions, field names and file order in all load files should match.
  - (d) All electronic documents produced to the Committee should include the following fields of metadata specific to each document;  
  
BEGDOC, ENDDOC, TEXT, BEGATTACH, ENDATTACH,  
PAGECOUNT, CUSTODIAN, RECORDTYPE, DATE, TIME, SENTDATE,  
SENTTIME, BEGINDATE, BEGINTIME, ENDDATE, ENDTIME, AUTHOR, FROM,  
CC, TO, BCC, SUBJECT, TITLE, FILENAME, FILEEXT, FILESIZE,  
DATECREATED, TIMECREATED, DATELASTMOD, TIMELASTMOD,  
INTMSGID, INTMSGHEADER, NATIVELINK, INTFILPATH, EXCEPTION,

6. Documents produced to the Committee should include an index describing the contents of the production. To the extent more than one CD, hard drive, memory stick, thumb drive, box or folder is produced, each CD, hard drive, memory stick, thumb drive, box or folder should contain an index describing its contents.

7. Documents produced in response to this request shall be produced together with copies of file labels, dividers or identifying markers with which they were associated when the request was served.
8. When you produce documents, you should identify the paragraph in the Committee's schedule to which the documents respond.
9. It shall not be a basis for refusal to produce documents that any other person or entity also possesses non-identical or identical copies of the same documents.
10. If any of the requested information is only reasonably available in machine-readable form (such as on a computer server, hard drive, or computer backup tape), you should consult with the Committee staff to determine the appropriate format in which to produce the information.
11. If compliance with the request cannot be made in full by the specified return date, compliance shall be made to the extent possible by that date. An explanation of why full compliance is not possible shall be provided along with any partial production.
12. In the event that a document is withheld on the basis of privilege, provide a privilege log containing the following information concerning any such document: (a) the privilege asserted; (b) the type of document; (c) the general subject matter; (d) the date, author and addressee; and (e) the relationship of the author and addressee to each other.
13. If any document responsive to this request was, but no longer is, in your possession, custody, or control, identify the document (stating its date, author, subject and recipients) and explain the circumstances under which the document ceased to be in your possession, custody, or control.
14. If a date or other descriptive detail set forth in this request referring to a document is inaccurate, but the actual date or other descriptive detail is known to you or is otherwise apparent from the context of the request, you are required to produce all documents which would be responsive as if the date or other descriptive detail were correct.
15. Unless otherwise specified, the time period covered by this request is from January 1, 2009 to the present.
16. This request is continuing in nature and applies to any newly-discovered information. Any record, document, compilation of data or information, not produced because it has not been located or discovered by the return date, shall be produced immediately upon subsequent location or discovery.
17. All documents shall be Bates-stamped sequentially and produced sequentially.
18. Two sets of documents shall be delivered, one set to the Majority Staff and one set to the Minority Staff. When documents are produced to the Committee, production sets shall be delivered to the Majority Staff in Room 2157 of the Rayburn House Office Building and the Minority Staff in Room 2471 of the Rayburn House Office Building.

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
