The Honorable Jeh C. Johnson
Secretary
U.S. Department of Homeland Security
Washington, D.C. 20528

Dear Mr. Secretary:

As the aviation and drone industries develop new aerial systems technologies, the Department of Homeland Security, and other agencies, must address the concerns that arise related to public safety. The Committee has become aware of potential security vulnerabilities and emerging threats related to unmanned aerial systems (UAS).

While unmanned aircraft systems have become increasingly available to recreational users, the risk of a catastrophic event involving UAS has risen significantly. Last week, the DHS Office of Intelligence and Analysis sent an intelligence assessment to law enforcement agencies about the possibility of UAS being used as weapons in an attack.¹ According to the notice, the rising trend in UAS incidents and near-misses in the National Airspace System “underscore potential security vulnerabilities . . . that could be used by adversaries to leverage UAS as part of an attack.”²

The possibility that UAS could be used in an attack is particularly disconcerting in light of the numerous drone sightings at John F. Kennedy International Airport last week.³ Furthermore, the Department noted that there have been more than 500 drone encounters at sensitive sites across the United States since 2012; 218 of which were at sites related to the aviation system.⁴ The Committee seeks to understand how DHS is addressing these vulnerabilities and threats.

To assist the Committee, please provide the following documents and information as soon as possible, but no later than August 21, 2015:

1. A copy of the July 31, 2015 intelligence assessment released by the Office of Intelligence and Analysis;

2. A detailed description of the Department's efforts to assess security vulnerabilities posed by UAS, and efforts to address potential UAS threats, including but not limited to a copy of the Department's agency-wide threat model and all intelligence assessments related to UAS since 2012;
3. A detailed description of past, current, and proposed UAS mitigation capabilities at or near sensitive sites, including, but not limited to, sites within the National Capital Region, the United States, and abroad;
4. A detailed description of any and all UAS encounters at sensitive sites since 2012; and,
5. A detailed description of the Department's role in identifying, mitigating, and responding to threats posed by UAS at sensitive sites, and how the Department is responding to those threats.

In addition, please provide the Committee with a briefing on the status of your investigation of the gyrocopter incident in the National Capital Region, and UAS vulnerabilities at sensitive sites, no later than 5:00 p.m. on August 21, 2015. The Committee on Oversight and Government Reform is the principal oversight committee of the House of Representatives and may at "any time" investigate "any matter" set forth in House Rule X.

Please deliver your response to the Majority staff in Room 2157 of the Rayburn House Office Building and the Minority staff in Room 2471 of the Rayburn House Office Building. The Committee prefers, if possible, to receive your response in electronic format.

Please contact Michael Kiko or Betty Ward-Zukerman of the Majority staff at (202) 225-5074 or Lucinda Lessley of the Minority staff at (202) 225-5051 with any questions about this request. Thank you for your attention to this matter.

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
