The Honorable Gene L. Dodaro
Comptroller General of the United States
U.S. Government Accountability Office
441 G Street, NW
Washington, D.C. 20548

Dear Mr. Dodaro:

We write to request that the Government Accountability Office (GAO) conduct a study to examine how the U.S. Department of Education's Office of Federal Student Aid (FSA) and its various contractors and school partners manage federal student aid records.

FSA is tasked with ensuring that all eligible individuals benefit from federal financial assistance for education and training beyond high school. As such, it oversees the award of billions of dollars in federal student aid, including grants and low-interest loans, to millions of eligible students each year. The processing of federal student aid is complex and requires FSA – along with its contractors and school partners – to perform a range of functions across the student aid life cycle. Those functions include the handling and storing of personally identifiable information (PII) on students such as Social Security numbers, dates of birth, and tax data, among other personally identifiable and financial information.

Given the recent number of public and private sector breaches, it is incumbent upon FSA and its partners to ensure the safety and security of the PII that is stored on their networks. With this in mind, we specifically request that your study include an examination of the following:

1. What information is being collected and used by FSA, its contractors, and its school partners as part of the federal student aid process?

2. What are FSA, its contractors, and its school partners' recordkeeping policies and processes for federal student aid information (to include paper and electronic information)?

    a. How do FSA, its contractors, and school partners store and protect the applications and related information they collect?

b. What automated systems do FSA, its contractors, and its school partners use to manage records for the federal student aid programs, and how were those systems acquired?

c. Does FSA plan to modify or change any of its automated systems for federal student aid programs?

3. Does FSA have an agreement to share any of the information it collects with any other entities?

4. What are FSA, its contractors, and its school partners' record retention policies for federal student aid information?

   a. How are paper and electronic records retained and disposed of?

   b. For what length of time do FSA, its contractors, and its school partners keep the information collected on applicants?

The Committee on Oversight and Government Reform is the principal investigative committee in the U.S. House of Representatives. Pursuant to House Rule X, the Committee has authority to investigate "any matter" at "any time."

Please contact Katie Bailey of the Majority staff at (202) 225-5074 or Tim Lynch with the Minority staff at (202) 225-5051 with any questions about this request. Thank you for your attention to this matter.

Sincerely,

Jason Chaffetz
Chairman

14. If a date or other descriptive detail set forth in this request referring to a document is inaccurate, but the actual date or other descriptive detail is known to you or is otherwise apparent from the context of the request, you are required to produce all documents which would be responsive as if the date or other descriptive detail were correct.

15. Unless otherwise specified, the time period covered by this request is from January 1, 2009 to the present.

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
