FY 2015 Historical Details: Queries are from HHS October 5th, 2015.
FY2016 YTD data is updated through 06/18/2016 (HHS v.1.22 run date
06/20/2016, EID as of 06/18/2016).

Detainer Criminality is defined by the Detainer Crime Threat Level,
which is based upon the threat level related to the initial crime at the
time the detainer is prepared, taking into account the most serious crime
level (1, 2, or 3), but regardless of conviction status. ICE began
reporting this as of 10/01/2010.

Please note that the unassigned AOR records are under further review.

Starting in FY2013, Detainers are captured by filtering for the
processing officer's program at the time of the encounter and not
necessarily related to the event program.

All stats are pulled based on Current Program which attributes all cases
back to the Program of the processing officer of the event.

FY2016 YTD data is updated through 06/16/2016 (HHS v. 1.22 run date 06/20/2016, EID) as of 06/16/2016.

The figures contained in this report for FY2016 through FY2015 are historical and remain static. Only FY2016 YTD figures are updated in this report.

FY2010-2015 excludes ORR and MHP facilities, as well as U.S. Marshals Service Prisoners.

FY2016 excludes MHP facilities and ORR transfer facilities, as well as U.S. Marshals Service Prisoners.

ALOS Criminality is based on Removal Case Threat Level. One is a current threat level reflects a person's current threat level. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal or not) (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2 and Level 3 offenders. Level 1 offenders are those alien crimes include aggravated felonies, as defined in E 101(a)(4)(B) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies". Level 2 offenders are alien convicted of any other felon or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors". Level 3 offenders are alien convicted of misdemeanor crimes punishable by less than 1 year. Prior to FY 2011, ICE used SC levels 1, 2 and 3 for prioritization purposes.

ALOS are pulled based on Current Program which attributes all cases back to the Program of the processing officer of the event. However, if Current Program = OFF, XXX, ZZZ, or null then Current Program is used. The ALOS Arresting Agency includes the following (CBP) and (HHS) Arresting Agency programs: 2N7g Program, Alternatives to Detention, ERO Criminal Alien Program, Detained Docket Control, Detention and Separation, Law Enforcement Area Response Unit, Non-Detained Docket Control, Juvenile, Fugitive Operations, Violent Criminal Alien Section, Joint Criminal Alien Response Team, Probation and Parole, Quick Response Team, User Fee Investigations, Joint Terrorism Task Force, Non-User Fee Investigations, HSI Criminal Arrest Only and Intelligence.

The CBP Arresting Agency includes the following programs: Border Patrol, Inspections, Inspections-Off, Inspections and Visa Inspections-Sea.

The Other Arresting Agency includes the following (USIS) and "Other" Arresting Agency programs: Examinations, Admissions, Asylum, Office of the Principal Legal Advisor, Default program area for interface records and PICS Default value - for user initials only.

FY 2015 Historical Details Queries are from IIDS October 5th, 2015.
FY 2016 YTD data is updated through 06 18 2016 (IIDS v.1.22 run date 06 20 2016; EID as of 06 18 2016).

CDI Criminality is based upon the Apprehension Threat Level. The Apprehension Threat Level is associated with the person's arrest and it reports only on convicted crimes related with that arrest. R.E. began reporting this as of 10 01 2010.

Please note that the unassigned AOR records are under further review. Starting in FY2013, CDis are captured by filtering for the processing officer's program at the time of the encounter and not necessarily related to the event program.

All stars are pulled based on Current Program which attributes all cases back to the Program of the processing officer of the event.

FY2016 YTD data is updated through 06/18/2016 (HHS v. 1.22 run date 06/20/2016; EID as of 06/18/2016).

The figures contained in this report for FY2001 through FY2015 are historical and remain static. Only FY2016 YTD figures are updated in this report.

FY2010 - 2015 excludes ORR and MRP facilities, as well as U.S. Marshals Service Prisoners.

FY2016 excludes MRP facilities and ORR transfers facilities, as well as U.S. Marshals Service Prisoners.

The Average Daily Population (ADP) is based on Midnight Count. A MANDAY is based on whether a SIBREC is in a ERO detention facility for the midnight count. For every SIBREC in a facility for the midnight count, that corresponds to one MANDAY. The ADP is the number of mandays for a given time period, divided by the number of days in that time period.

Detention data is updated through 06/18/2016 (HHS v. 1.22 run date 06/20/2016; EID as of 06/18/2016).

The ICE Threat Levels reflect the priorities outlined in Director Morton's June 2010 Memorandum entitled "ICE Civil Immigration Enforcement Priorities effective October 1, 2010." Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanor" crimes punishable by less than 1 year. Prior to FY 2011, ICE used ICE levels 1, 2, and 3 for prioritization purposes.

FY2016 excludes MRP facilities and ORR transfers facilities, as well as U.S. Marshals Service Prisons.

Unlinked detentions are not currently being captured in the detention case-based report. This affects the final order vs. pending final order figures for the detention population.

The Fiscal Years Highlighted in Gray indicate Removals Only, no Returns.

Returns include Voluntary Returns, Voluntary Departures and Withdrawals Under Docket Control.

ERO Removals include aliens processed for Expedited Removal (ER) and turned over to ERO for detention. Aliens processed for ER and not detained by ERO are primarily processed by Border Patrol. CBP should be contacted for those statistics.

The figures contained in this report for FY2001 through FY2013 are historical and remain static. FY2009 Removals and Returns are a adjusted historic number as of 8/16/2010 and will remain static. Only FY2016 YTD figures are updated in this report.

FY2016 YTD data is updated through 06/18/2016 (IHS v 1.22 run date 06/20/2016; ERO) as of 06/18/2016.

Starting in FY2009, ICE began to "lock" removal statistics on October 5th at the end of each fiscal year and counted only the aliens whose removal or return was already confirmed. Aliens removed or returned in that fiscal year but not confirmed until after October 5th were excluded from the locked data and thus from R/F statistics. To ensure an accurate and complete representation of all removals and returns, ICE will include the removals and returns confirmed after October 5th into the next fiscal year. The number of removals in FY2009, excluding the "lag" from FY2008, was 387,790. The number of removals in FY2010, excluding the "lag" from FY2009, was 375,440. This number does not include 76,732 expedited removal cases which ICE closed on behalf of CBP in FY2010. Of those 76,732, 35,900 cases resulted from a joint CBP/ICE operation in Arizona. ICE spent \$1,153,260 on those 35,900 cases. The number of removals in FY2011, excluding the "lag" from FY2010, was 385,145. The number of removals in FY2012, excluding the "lag" from FY2011, was 402,919. The number of removals in FY2013, excluding the "lag" from FY2012, was 363,144. The number of removals in FY2014, excluding the "lag" from FY2013, was 311,111. The number of removals in FY2015, excluding the "lag" from FY2014, was 251,256.

FY Data Lag Case Closure Lag is defined as the physical removal of an alien occurring in a given month, however, the case is not closed in EARM until a subsequent FY after the data is locked. Since the data from the previous FY is locked, the removal is recorded in the month the case was closed and reported in the next FY Removals. This will result in a higher number of recorded removals in an FY than actual departures.

All stats are pulled based on Current Program which attributes all cases back to the Program of the processing officer of the event. However, if Current Program = OPL, XXX, ZZZ, or null, then Event Program is used.

The "ICE" Arresting Agency includes the following ERO and HSI Arresting Agencies programs: 287g Program, Alternatives to Detention, ERO Criminal Alien Program, Detained Docket Control, Detention and Deportation, Law Enforcement Area Response Unit, Non-Detained Docket Control, Juvenile, Fugitive Operations, Violent Criminal Alien Section, Joint Criminal Alien Response Team, Probation and Parole, Quick Response Team, User Fee Investigations, Joint Terrorism Task Force, Non-User Fee Investigations, HSI Criminal Arrest Only, and Intelligence.

The "CBP" Arresting Agency includes the following programs: Border Patrol, Inspections-Air, Inspections-Land, and Inspections-Sea.

The "Other" Arresting Agency includes the following US ISN and "Other" Arresting Agency programs: Examinations, Adjudications, Asylum, Office of the Principal Legal Advisor, Default program area for interface records, and PHS Default value - for user initialization only.

The Fiscal Years Highlighted in Gray indicate Removals Only, no Returns
 Returns include Voluntary Returns, Voluntary Departures and Withdrawals Under Docket Control

The ICE Threat Levels reflect the priorities outlined in Director Morton's June 2010 Memorandum entitled ICE Civil Immigration Enforcement Priorities effective October 1, 2010. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanor" crime(s) punishable by less than 1 year. Prior to FY 2011, ICE used NC levels 1, 2, and 3 for prioritization purposes.

ERO Removals include aliens processed for Expedited Removal (ER) and turned over to ERO for detention. Aliens processed for ER and not detained by ERO are primarily processed by Border Patrol. CBP should be contacted for those statistics. The figures contained in this report for FY2001 through FY2015 are historical and remain static. FY2009 Removals and Returns are a adjusted historic number as of 8/16/2010 and will remain static. Only FY2016 YTD figures are updated in this report.

FY2016 YTD data is updated through 06/18/2016 (IIDS v.1 22 run date 06/20/2016; EID as of 06/18/2016).

Starting in FY2009, ICE began to "lock" removal statistics on October 5th at the end of each fiscal year and counted only the aliens whose removal or return was already confirmed. Aliens removed or returned in that fiscal year but not confirmed until after October 5th were excluded from the locked data and thus from ICE statistics. To ensure an accurate and complete representation of all removals and returns, ICE will include the removals and returns confirmed after October 5th into the next fiscal year. The number of removals in FY2009, excluding the "lag" from FY2008, was 387,790. The number of removals in FY2010, excluding the "lag" from FY2009, was 373,440. This number does not include 76,732 expedited removal cases which ICE closed on behalf of CBP in FY2010. Of those 76,732 33,900 cases resulted from a joint CBP/ICE operation in Arizona. ICE spent \$1,155,260 on those 33,900 cases. The number of removals in FY2011, excluding the "lag" from FY2010, was 385,145. The number of removals in FY2012, excluding the "lag" from FY2011, was 402,919. The number of removals in FY2013, excluding the "lag" from FY2012, was 363,144. The number of removals in FY2014, excluding the "lag" from FY2013, was 311,111. The number of removals in FY2015, excluding the "lag" from FY2014, was 231,250.

FY Data Lag Case Closure Lag is defined as the physical removal of an alien occurring in a given month; however, the case is not closed in EARM until a subsequent FY after the data is locked. Since the data from the previous FY is locked, the removal is recorded in the month the case was closed and reported in the next FY Removals. This will result in a higher number of recorded removals in an FY than actual departures.
