The Honorable Jeh C. Johnson
Secretary
U.S. Department of Homeland Security
Washington, DC 20528

Dear Mr. Secretary:

Voting is the cornerstone of our democracy. When Americans go to the polls they should feel confident that their ballot will reflect their vote. This year has seen a growing, alarming trend of cyber-attacks targeting election processes. These attacks threaten to undermine Americans' faith in the integrity of the election process.

Earlier this year, hackers reportedly accessed voter registration rolls in Arizona and Illinois, resulting in the theft of personnel data of over 200,000 Illinois voters.¹ More alarmingly, recent reports have exposed that many of the electronic voting machines currently in use may be vulnerable to cyber-attack and have un-patched, unmitigated, or undiscovered security flaws that can be exploited by hackers.²

In response to these growing concerns over the integrity of our election process, you recently stated that the administration is considering new steps to strengthen the cybersecurity of the election process — including designating the electronic voting system for November's election as "critical infrastructure."³

To assist the Subcommittee on Information Technology in understanding the scope and scale of the cyber related threats to our election process, please provide a briefing on the nature of the cyber threat our election process faces and on the current status of your decision whether to designate electoral systems as critical infrastructure. In addition, please provide the Subcommittee with copies of any written documents the Department has disseminated to other federal, state, or local agencies on the breaches and strategies to mitigate the threat. Please provide the briefings and the documents by September 15, 2016.

The Committee on Oversight and Government Reform is the principal investigative committee in the U.S. House of Representatives. Pursuant to House Rule X, the Committee has

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
