

Congress of the United States
House of Representatives
Washington, DC 20515

October 5, 2017

The Honorable Elaine C. Duke
Acting Secretary
U.S. Department of Homeland Security
Washington, D.C. 20528

Dear Ms. Duke:

The Committee on Science, Space, and Technology and the Committee on Oversight and Government Reform are conducting an investigation into the recent data breach of private consumer information at Equifax. This data breach has now reportedly put at risk the personally identifiable information (PII) of 145.5 million consumers.¹

Based on the information obtained to date, the Department of Homeland Security's (DHS) U.S. Computer Emergency Readiness Team (US-CERT) issued an alert regarding the Apache Struts vulnerability to a number of recipients, including Equifax, on March 8, 2017.² This vulnerability and Equifax's failure to patch this vulnerability appears to have been a key factor leading to the data breach first publicly reported by Equifax in September 2017.

Thus, we are writing to request documents from the US-CERT and DHS's National Cybersecurity and Communications Integration Center as part of our investigation in order to understand the communications between the Department and Equifax officials. Please provide the following documents no later than October 19, 2017:

1. The US-CERT alert(s) regarding the "Apache Struts" vulnerability, dated on or about March 8, 2017; and
2. All communications between the Department and any Equifax company officials for the period of March 1, 2017, to the present.

¹ Press Release, Equifax Announces Cybersecurity Firm has Concluded Forensic Investigation of Cybersecurity Incident (Oct. 2, 2017).

² *Oversight of Equifax Data Breach: Answers for Consumers Before the H. Comm. on Energy and Commerce, Subcommittee on Digital Commerce and Consumer Protection, 115th Cong.* (October 3, 2017) (statement of Richard F. Smith, Equifax former Chief Executive Officer).

The Honorable Elaine C. Duke

1. In complying with this request, you are required to produce all responsive documents that are in your possession, custody, or control, whether held by you or your past or present agents, employees, and representatives acting on your behalf. You should also produce documents that you have a legal right to obtain, that you have a right to copy or to which you have access, as well as documents that you have placed in the temporary possession, custody, or control of any third party. Requested records, documents, data or information should not be destroyed, modified, removed, transferred or otherwise made inaccessible to the Committee.
2. In the event that any entity, organization or individual denoted in this request has been, or is also known by any other name than that herein denoted, the request shall be read also to include that alternative identification.
3. The Committee's preference is to receive documents in electronic form (i.e., CD, memory stick, or thumb drive) in lieu of paper productions.

7. Documents produced in response to this request shall be produced together with copies of file labels, dividers or identifying markers with which they were associated when the request was served.
8. When you produce documents, you should identify the paragraph in the Committee's schedule to which the documents respond.
9. It shall not be a basis for refusal to produce documents that any other person or entity also possesses non-identical or identical copies of the same documents.
10. If any of the requested information is only reasonably available in machine-readable form (such as on a computer server, hard drive, or computer backup tape), you should consult with the Committee staff to determine the appropriate format in which to produce the information.
11. If compliance with the request cannot be made in full by the specified return date, compliance shall be made to the extent possible by that date. An explanation of why full compliance is not possible shall be provided along with any partial production.
12. In the event that a document is withheld on the basis of privilege, provide a privilege log containing the following information concerning any such document: (a) the privilege asserted; (b) the type of document; (c) the general subject matter; (d) the date, author and addressee; and (e) the relationship of the author and addressee to each other.
13. If any document responsive to this request was, but no longer is, in your possession, custody, or control, identify the document (stating its date, author, subject and recipients) and explain the circumstances under which the document ceased to be in your possession, custody, or control.
14. If a date or other descriptive detail set forth in this request referring to a document is inaccurate, but the actual date or other descriptive detail is known to you or is otherwise apparent from the context of the request, you are required to produce all documents which would be responsive as if the date or other descriptive detail were correct.
15. Unless otherwise specified, the time period covered by this request is from January 1, 2009 to the present.
16. This request is continuing in nature and applies to any newly-discovered information. Any record, document, compilation of data or information, not produced because it has not been located or discovered by the return date, shall be produced immediately upon subsequent location or discovery.
17. All documents shall be Bates-stamped sequentially and produced sequentially.
18. Two sets of documents shall be delivered, one set to the Majority Staff and one set to the Minority Staff. When documents are produced to the Committee, production sets shall be delivered to the Majority Staff in Room 2157 of the Rayburn House Office Building and the Minority Staff in Room 2471 of the Rayburn House Office Building.

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
