January 10, 2022

The Honorable Muriel Bowser  
Mayor of the District of Columbia  
1350 Pennsylvania Ave NW #406  
Washington, D.C. 20004

Dear Mayor Bowser:

We write to express our concern about the vaccine mandate (the Order) you issued requiring proof of coronavirus vaccination for entry into most indoor premises in the District of Columbia (the District or D.C.).<sup>1</sup> Like the Democrat lockdowns of 2020, the latest left-wing vaccine passport fad will not prevent the virus from spreading. This sweeping mandate, however, will harm the District's economic recovery and lock many Americans out of their capital city. We urge you to withdraw the Order.

Beginning on January 15, 2022, Order 2021-148 prohibits anyone over the age of twelve from entering an indoor facility without "displaying proof of vaccination against COVID-19[.]"<sup>2</sup> By February 15, all people over twelve years old will be required to be "fully vaccinated" to enter indoor venues.<sup>3</sup> The Order does not provide exemption for those who would produce a negative test result or for those who have developed natural immunity to the coronavirus, which numerous studies have shown is equally effective as the vaccine.<sup>4</sup>

The spread of the omicron variant among the vaccinated population indicates the Order will be ineffective at stopping viral spread while imposing significant costs to the District, its residents, its economy, and Americans across the nation who wish to visit their capital.<sup>5</sup> Available data evaluating omicron's virulence shows it appears relatively mild.<sup>6</sup> In South Africa—where the omicron variant was first reported—only about 23.8 percent of the population

<sup>6</sup> Noah Weiland, *Federal Officials Say Early Omicron Data Suggests a Less Deadly Wave*, N.Y. TIMES (Dec. 29, 2021).

has been fully vaccinated.<sup>7</sup> But data suggests “the variant has not caused a corresponding jump in hospitalizations and death.”<sup>8</sup> Orders, similar to the D.C. Order, from around the country such as those in New York, Philadelphia, and San Francisco have been ineffective at stopping the latest surge of infections in those cities and the states in which they are located.<sup>9</sup>

By requiring D.C. businesses to enforce the Order, the D.C. government (whose buildings are, by and large, exempt from the Order) will strain the District’s economic recovery. According to a report prepared for the D.C. Chamber of Commerce, as of June 2021, nearly half the small businesses that operated in January 2020 were closed and revenue was down by about 57 percent.<sup>10</sup> Committee staff recently spoke with D.C. Chief Financial Officer Fitzroy Lee, who estimated 20 percent of D.C. revenue comes from its collection of sales tax and 25 percent from income tax. Moreover, he told staff that hotel revenues were still down 33 percent and restaurant revenues were still down 25 percent. Both of these streams of revenue will be further diminished if D.C. businesses continue to close.

This is another draconian measure against children—a group that has unfairly suffered at the hands of liberal educators and the institutions they serve throughout this pandemic. In particular, school groups visiting D.C. will be prohibited from taking advantage of our nation’s treasures. According to the CDC, just over half of 12-17 year olds have received two doses of the vaccine.<sup>11</sup> By requiring anyone over the age of twelve to present proof of vaccination to enter most indoor establishments in the District, students who are not vaccinated will be prohibited from eating at restaurants, meeting indoors for conferences, enjoying entertainment venues, and more. All Americans, especially our youth, should be welcomed to the District, but your sweeping mandate locks them out of their capital city.

To better understand the District’s vaccine mandate, please provide a briefing to the Committee no later than January 18, 2022. To arrange the briefing or ask any questions about this request, please contact Committee staff at (202) 225-5074.

The Committee on Oversight and Reform is the principal oversight Committee of the U.S. House of Representatives and has broad authority to investigate “any matter” at “any time” under House Rule X.
