

Congress of the United States
House of Representatives

COMMITTEE ON OVERSIGHT AND REFORM

2157 RAYBURN HOUSE OFFICE BUILDING

WASHINGTON, DC 20515-6143

MAJORITY (202) 225-5051
MINORITY (202) 225-5074
<https://oversight.house.gov>

October 18, 2022

The Honorable Jessica Rosenworcel
Chairwoman
U.S. Federal Communications Commission
45 L Street NE
Washington, DC 20554

Dear Chairwoman Rosenworcel:

We write to request a briefing from the Federal Communications Commission (Commission) on efforts to remove Huawei Technologies Co., Ltd (Huawei) infrastructure from the United States cellular network. The Federal Bureau of Investigation (FBI) recently determined that Huawei equipment installed atop cell towers—in one instance only a third of a mile from an intercontinental ballistic missile (ICBM) silo in Montana—is “capable of capturing and disrupting highly restricted Defense Department communications, including those used by U.S. Strategic Command, which oversees the country’s nuclear weapons.”¹ In 2020, Congress enacted a program to remove and replace Chinese-made cellular equipment throughout the United States.² Committee Republicans are concerned that the Huawei equipment has yet to be removed and, therefore, continues to pose a threat to U.S. national security.

On March 12, 2020, the Secure and Trusted Communications Networks Act of 2019 was signed into law.³ This bill established a program to “supply small communications providers with funds to offset the cost of removing prohibited equipment and services from their networks and replacing it with more secure communications equipment.”⁴ Congress appropriated \$1.895 billion to carry out the reimbursement program.⁵ Yet, as of today, none of the Huawei equipment has been removed.⁶

Huawei—a state-sponsored espionage telecommunications giant⁷—was originally “blacklisted”⁸ by President Trump on May 15, 2019 and again on June 3, 2021 by President

Biden.⁹ The orders—that placed Huawei on the Entity List—blocks any ownership or dealings with Huawei due to “its involvement in military, intelligence, and security research and development programs, and weapons and related equipment production under the PRC’s [People’s Republic of China’s] Military-Civil Fusion Strategy.”¹⁰

Numerous agencies, including the Department, the FBI, and the U.S. Federal Communications Commission (FCC), have raised significant concerns over the capabilities and malicious nature of Huawei technology.¹¹ The Commission plans to ban all purchases of future Huawei telecommunications devices because of its capabilities to threaten American data privacy¹²—but Huawei telecommunications equipment remains operational across the United States.¹³

Committee Republicans are concerned about corporate espionage, theft of military intelligence, and the capabilities of cellular telecommunications to be intercepted and monitored by the Chinese Communist Party (CCP).¹⁴ According to reports, Huawei telecommunications equipment is capable of intercepting not only commercial cell traffic, but also data transmitted on restricted airwaves used by the military.¹⁵ The ability for Huawei to monitor—and possibly interrupt—U.S. military networks is a significant national security threat. The PRC is undergoing the “largest and most ambitious” military buildup since the end of World War II.¹⁶ It is critical that U.S. civilian and military networks are protected to ensure that the United States military maintains operational ambiguity.

We are concerned that the Commission has made little to no progress on removing Huawei cellular equipment. We therefore request a briefing on the Commission’s plan of action to facilitate the removal of Huawei telecommunications equipment as soon as possible but no later than October 25, 2022.

Thank you for your consideration of this important issue. To make arrangements to schedule the briefing or ask any related follow-up questions, please contact Committee on Oversight and Reform Republican Staff at (202) 225-5074. The Committee on Oversight and Reform is the principal oversight committee of the U.S. House of Representatives and has broad authority to investigate “any matter” at “any time” under House Rule X. Thank you in advance for your cooperation with this inquiry.
