The Honorable Anne Milgram  
Administrator  
Drug Enforcement Administration  
U.S. Department of Justice  
8701 Morrisette Drive  
Springfield, VA 22152

Dear Administrator Milgram:

Committee Republicans are continuing to investigate how Biden Administration policies have created the worst border crisis in American history. Recent years have seen record-shattering trafficking of deadly narcotics like fentanyl across the border and unprecedented levels of fentanyl-related deaths in the U.S. Despite requesting information from the Drug Enforcement Administration (DEA), to date, we have not received a response. As we look to the 118<sup>th</sup> Congress, Committee Republicans intend to continue prioritizing this investigation. It is important that the American people, and their elected lawmakers, understand the role Biden Administration policies have played in fueling the border and fentanyl crises, and what the Administration's plan is, if any, to reverse course and resolve the situation. We therefore reiterate our previous requests for information.

On January 11, 2022, we requested information from DEA regarding the Biden Administration's policies that have exacerbated the fentanyl crisis.<sup>1</sup> DEA failed to respond. Committee Republicans refuse to stand by as the Biden Administration's lack of border enforcement and drug cartels destroy and take the lives of hundreds of Americans every day. President Biden's failed policies have put our country on a path to destruction with increased fentanyl deaths, increased crime, and a broken border. The American people have a right to know that their taxpayer dollars are fighting this deadly synthetic opioid crisis caused by this Administration's broken border policies.

The DEA possesses information critical to this investigation. We look forward to working with your office to deliver the information we requested in our prior letter. Please provide the information requested in our prior correspondence, and prioritize the following requests for production, covering the time period January 20, 2021 to the present, as soon as
