

Congress of the United States

Washington, DC 20515

December 13, 2022

Mr. Francis Collins, M.D., Ph.D.
Acting Science Advisor to the President
The White House
1600 Pennsylvania Ave., N.W.
Washington, DC 20500

Dear Dr. Collins:

Since April 2, 2020, Committee Republicans have been investigating the origins of the COVID-19 pandemic, including the Chinese Communist Party's (CCP) role in obscuring the truth regarding the initial outbreak, and whether any U.S. taxpayer dollars funded the Wuhan Institute of Virology's (WIV) dangerous gain-of-function research.¹ We have sent numerous letters to the U.S. National Institute of Allergy and Infectious Diseases (NIAID), the U.S. National Institutes of Health (NIH), and the U.S. Department of Health and Human Services (HHS). To date, these requests have either been ignored or the responses have been insufficient. As an expert and the former director of the NIH, your future cooperation is vital to our investigation.

During the 118th Congress, this investigation will be a priority for the Committee but also the global community. As stated by 18 experts in *Science* magazine, “[k]nowing how COVID-19 emerged is critical for informing global strategies to mitigate the risk of future outbreaks.”² Further, according to the *Lancet* COVID-19 Commission, “[i]dentifying [COVID-19’s] origins would provide greater clarity into not only the causes of the current pandemic but also vulnerabilities to future outbreaks and strategies to prevent them.”³ The origins of the disease that has taken the lives of more than six million people is still unknown.⁴ Uncovering the truth about the origins of COVID-19 is vital to U.S. national security, critical to the prevention of future pandemics, and will bring some semblance of closure to the families of those who lost loved ones during the pandemic.

Because you have been at the center of the pandemic since its inception, your documents and testimony are essential to informing the Committee about what the U.S. government knew regarding the origins of COVID-19 and when the government knew it.
