Dear Dr. Lorentz:

On August 20, 2026, Chairman Brandon Gill of the Committee on Oversight and Government Reform's Task Force on Defending Constitutional Rights and Exposing Institutional Abuses invited you, the Founder and Chief Medical Officer of Miami Medical Concierge Services, LLC, to appear for a September 1, 2026 hearing to "examine the birth tourism industry and its consequences on the United States."¹ To advance the Committee's oversight and legislative responsibilities and interests, your testimony at that hearing is critical. To ensure your appearance at the September 1 hearing, please find attached a subpoena for your testimony.

Back in May the Committee initially requested that you produce documents and information to inform its broader investigation into the birth tourism industry.² The Committee's investigation into the birth tourism industry is essential to determine whether additional legislation is necessary to mitigate national security concerns and election integrity threats posed by adversarial nations to include the People's Republic of China and Russia. As Chairman Gill and I explained:³

"The benefits of U.S. citizenship are a unique privilege. However, as foreign expectant mothers traveling for this purpose come predominantly from China and Russia,⁴ there are

concerns that the birth tourism industry is giving rise to potential national security and election integrity threats⁵ posed by adversarial nations that challenge U.S. interests.⁶

Subsequently, the Supreme Court issued its ruling in *Trump v. Barbara*, striking down an effort by the Trump Administration to limit the applicability of birthright citizenship for certain children of foreign nationals born in the United States.⁷ This intervening action makes the Committee's investigation even more timely and critical. For example, legislation may be necessary to ensure that border officials are properly applying all available lawful procedures to prevent foreign nationals from engaging in birth tourism.

The Committee believes you possess valuable information relevant to the birth tourism industry.⁸ Because of your direct involvement as the Founder and Chief Medical Officer for Miami Medical Concierge Services, LLC, doing business as "Have My Baby in Miami," you have direct knowledge of the marketing tactics and industry practices of birth tourism.⁹ This information is invaluable to the Committee as it seeks to determine potential legislative solutions to mitigate the potential harms from birth tourism. Your testimony is essential for the Task Force's upcoming hearing.

In response to Chairman Gill's invitation to testify on September 1, your counsel has noted that both you and Miami Medical Concierge Services, LLC are "the subject of a pending federal criminal investigation being conducted by the United States Attorney's Office for the Southern District of Florida," and confirmed that "the subject matter ... substantially overlaps with the subject matter of the Task Force's hearing."¹⁰ Specifically, your counsel stated that "[c]onsistent with the advice of counsel, and in light of the constitutional protections available to any individual who is the subject of a pending federal criminal investigation, including the privilege against self-incrimination under the Fifth Amendment to the United States Constitution, Dr. Lorentz is not in a position to provide testimony, a written statement, or the requested disclosures at this time"¹¹ and requested that your "appearance be deferred" to an unknown date in the future, until "the pending federal investigation has concluded, or has otherwise progressed

to a point at which [your] testimony would no longer risk prejudicing [your] constitutional rights.”¹²

The Committee declines your request to defer your testimony until some unknown future date. Congress’s authority to conduct oversight is not curtailed by the existence of other civil or even criminal investigations.¹³ As the Founder and Chief Medical Officer of a company doing business as “Have My Baby in Miami,” your knowledge regarding the company’s marketing practices and direct observations relevant to the birth tourism industry is vital to the immediate investigation. Furthermore, given the national security concerns raised by birth tourism, delaying the hearing or deferring your testimony to some unknown date in the (potentially far) future would be an extraordinary action that would curtail the Committee’s ability to glean valuable information that will inform its oversight and further its legislative goals. A potentially months-long or even years-long delay would hamper the Committee’s ability to complete its investigation and fulfil its legislative purposes. Accordingly, to ensure your appearance at the hearing and to advance the Committee’s legislative purposes, attached is a subpoena compelling your attendance and testimony.

The Committee on Oversight and Government Reform is the principal oversight committee of the U.S. House of Representatives and has broad authority to investigate “any matter” at “any time” under House Rule X.¹⁴ Further, House Rule XI clause 2(m)(1)(B) grants Committees of the House of Representatives the authority “to require, by subpoena or otherwise, the attendance and testimony of such witnesses and the production of such books, records, correspondence, memoranda, papers, and documents as it considers necessary.”¹⁵ If you have any questions regarding this subpoena, please contact the Committee on Oversight and Government Reform Majority staff at (202) 225-5074.

Thank you for your prompt attention to this important investigation.
